

WIN COMPRESSOR OIL R

Compressor Oils

WIN Compressor Oil R is a premium quality rotary compressor oil formulated from high quality base oil with antioxidant, antitrust, anti-foam and anti-wear additives.

PERFORMANCE STANDARDS

WIN Compressor Oil R meets the following performance requirements:

- * DIN 51506 Class VDL

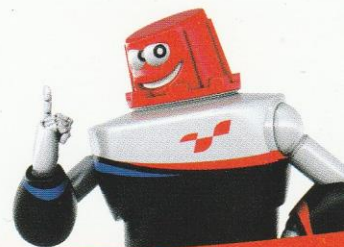

BENEFITS

WIN Compressor Oil R provides the following benefits:

- * Resists carbon formation on delivery valves and piston rings.
- * Protects against rust.
- * Good oxidation stability.
- * Resist the formation of sludge.
- * Good anti-wear.
- * Good anti-foam.
- * Good water separation.

APPLICATIONS

WIN Compressor Oil R is recommended for lubrication of flood type rotary screw and slide vane air compressors where the air delivery temperatures are high (200 deg C or more) and anti-wear additive is required.

TYPICAL CHARACTERISTICS

WIN COMPRESSOR OIL R

ISO GRADE	32	46	68
Viscosity,			
at 40 deg C, cSt	29.47	43.9	67.9
at 100 deg C, cSt	5.22	6.8	8.7
Viscosity Index	108	112	103
Flash Point, COC, deg C	236	238	250
Pour Point, deg C	-9	-12	-12
Carbon Residue Increase after Oxidation (DIN 51352 testPart 2), % wt	0.5	0.5	0.5
Specific Gravity, 15/15 deg C	0.856	0.865	0.873
